PROFESSIONAL SUMMARY

Front-End Developer specializing in building responsive, scalable, and high-performance web applications using React.js, Next.js, TypeScript, and modern JavaScript (ES6+). Skilled in RESTful API integration, authentication systems, state management, and deploying applications through CI/CD workflows. Passionate about creating clean, user-friendly interfaces while collaborating effectively within cross-functional teams.

PROFESSIONAL EXPERIENCE

Front-End Developer, Certira Certira working on educational platforms and specializing in web application developmentDeveloped responsive and interactive web interfaces using React.js and modern JavaScript (ES6+)Integrated front-end with REST APIs and optimized application performanceCollaborated with designers and backend teams to deliver user-friendly applications	10/2025 – Present Mansoura (Hybrid)
Upskilling, JSB Job Simulation Bootcamp - Worked on multiple projects during a 3-month training program, collaborating with a team of developers. - Gained hands-on experience with different technologies and tools to enhance technical skills. - Applied version control and collaboration practices using Git and GitHub. - Expanded projects to live environments using Netlify, Vercel, and GitHub Pages. - Configured build settings, troubleshooted deployment issues, and applied CI/CD practices. - Improved understanding of production workflows and deployment processes.	02/2025 – 05/2025 Remote
Summer Training (150 hours), Information Technology Institute (ITI) - Completed intensive hands-on training in front-end web development. - Gained practical experience with HTML5, CSS3, SASS, JavaScript, ECMAScript, Bootstrap, and ReactJS. - Strengthened technical skills and built a solid foundation in modern web technologies. - Deepened passion for front-end development and continuous learning.	07/2024 – 09/2024 Remote

EDUCATION

B.Sc. in Computers & Control Systems Engineering – Excellent with Honor (85%), Faculty of Engineering, Mansoura University	2020 – 2025
---	-------------

PROJECTS

ArchiSpace, Digital Housing Platform - Live Demo 🔗 - GitHub 🔗 - Developed a user-friendly platform to streamline housing unit management with features like company registration, service listing, consultation booking, and project management.	
---	--

- Explored AI integration for personalized apartment layouts, interior design ideas, and optimized furniture placement.
- Focused on delivering seamless UI/UX to enhance accessibility and efficiency for both service providers and homeowners.
- Successfully presented the project and achieved an A+ grade, showcasing teamwork, innovation, and strong technical execution.

Hotel Management App

- Live Demo [🔗](#) | - GitHub [🔗](#)
- Built a full-featured hotel booking system with admin and user panels.
- Implemented secure authentication, room & offer management, and booking system.
- Enhanced UX using Stripe, React Hook Form, Chart.js, and Framer Motion.

Project Management System

- Live Demo [🔗](#) | - GitHub [🔗](#)
- Expanded a responsive project management web app using React, TypeScript, and Vite.
- Applied role-based access, authentication, CRUD operations, and drag & drop features.
- Integrated Chart.js for data visualization and managed global state with Context API.
- Improved user experience and streamlined project workflows.

Food Management App

- Live Demo [🔗](#) | - GitHub [🔗](#)
- Developed a responsive recipe management app with user and admin portals.
- Included authentication, CRUD operations, filters, pagination, and favorites.
- Tech Stack: React.js, Vite, Axios, JWT, Bootstrap, React Hook Form, Netlify.

E-commerce Store

- Live Demo [🔗](#) | - GitHub [🔗](#)
- A modern and fully responsive E-Commerce Web Application built with **Next.js** (App Router + TypeScript) featuring secure authentication, dynamic cart & wishlist management, order tracking, profile and address management, reusable UI components, API integration, and a clean scalable architecture for a seamless user experience across all devices.

ACHIEVEMENTS

Victoris2.0 –Software Engineering Quest: Sumo Robot Hackathon.
Mansoura Robotics, Mansoura University.

TECHNICAL SKILLS

Frameworks & Libraries

React.js, Next.js, Vite, React Hook Form, Framer Motion, Chart.js, Bootstrap, Tailwind CSS, Material UI ,Axios

State Management

Redux Toolkit, Context API

Next.js Concepts

SSR, SSG, App Router

Languages

JavaScript(ES6+), TypeScript, HTML5, CSS3, SASS, C++, C, C#, Python

Tools

Git (Branching & Merging), GitHub, Netlify, Vercel, Notion, Kanbanflow

Other

Responsive Design, CI/CD Deployment, API Integration

SOFT SKILLS

- Adaptability
- Attention to Detail
- Team Collaboration
- Creativity
- Time Management
- Accountability Open to Feedback
- Critical Thinking
- Strong Communication
- Presentation Skills
- Problem Solving
- Eagerness to Learn

LANGUAGES

- Arabic
- English
